 Wilsonart®

IMPROVE THE EXPERIENCE WITH WILSONART

At Wilsonart, we know the mission of every healthcare organization is to provide patient care that's effective, medically relevant, and operationally efficient; all in a comfortable, convenient environment, where the patient-provider relationship is at the center.

This relationship is influenced by many factors that go well beyond the clinical aspects of the patient visit. The aesthetics of a waiting area, the quality of the surfaces, and the feel of a space can set a tone that either enhances or antagonizes the development of trust required to deliver outstanding medical care.

Environmental surfaces play a key role in creating a positive tone within healthcare built environments, but surface quality is dependent on proper material selection, durability of design, and material performance. That's why Wilsonart offers a broad collection of surfaces that address Disinfection, Durability, and Design challenges – for safety, efficiency, and patient comfort.

Every patient has an experience. With Wilsonart, you can help make each one exceptional.

Surfaces that Elevate Patient Care

Our Laminate, Solid Surface, and Quartz play different roles in the healthcare experience. When seamlessly and beautifully brought together, Wilsonart® Engineered Surfaces address the critical elements required of all surfaces in healthcare built environments: Disinfection, Durability and Design. With an endless array of options, we provide a one-stop resource to meet your needs, desires, and budget.

SS Solid Surface

Withstands frequent and harsh disinfection protocols
Seamless, smooth, and non-porous for stain resistance and easy maintenance
Easy to repair, refinish, or replace for low-cost, long-term service
Available with EOS^{CU} an EPA-registered, self-sanitizing surface

HPL High Pressure Laminate

Outperforms traditional veneer and Thermally Fused Laminate for impact and scratch resistance
Moisture-resistant surface
Increase functionality with specialty laminates – RE-COVER™ for updating, High Wear for extra durability, or Fire-Rated for code compliance

TFL Thermally Fused Laminate

Industry's best-matched Thermally Fused Laminate, High Pressure Laminate, and Edgeband solution for design and texture
Maintains visual continuity without compromising design
A cost-effective solution for low-touch applications

CL Chemsurf® Laminate

Provides exceptional chemical resistance without sacrificing design
Made to withstand harsh chemical environments

SPC Compact Laminate

High-performing structural panel
Offers impact, water, and fire resistance, plus extreme durability for frequent disinfection
Available in SOLICOR™ – specialty laminate with solid color core
Comes in a variety of thicknesses

QTZ Quartz

Offers a rich and welcoming appearance
Non-porous surface that's stain- and scratch-resistant
Tough, durable, and doesn't require sealing, for lower maintenance and longer life

VDL Virtual Design Library

An evolving online library with virtually unlimited High Pressure Laminate designs
Allows for expressive designs
Spectrum offering – allows color matching using an industry-standard color system, plus the option for wayfinding

WxY Wilsonart X You

Our quality laminate, featuring your custom design
Enhances your brand story
Allows surfaces to include instructional wayfinding
Ideal for logos, photos, or illustration

Our products are made with environmental responsibility. For more information, email or call us at healthcare@wilsonart.com and 800-433-3222.

A healthy first impression.

Provide a warm welcome to patients and families and send the message they're in a high-quality environment. Our surfaces help facilitate a positive experience from the very beginning.

HPL High Pressure Laminate

Made for outstanding durability. With our depth and breadth of options, you can create an ideal reception area.

QTZ Quartz

This material thrives in high-touch applications and sends a strong message about a facility's dedication to quality care.

SPC Compact Laminate

Take a preventative approach. With Compact Laminate, you can protect surfaces from impact common to healthcare settings.

TFL Thermally Fused Laminate

For low-touch surfaces, our TFL coordinates beautifully and makes the most of design budgets.

Cafeteria

Feast your eyes on a combination of Solid Surface and High Pressure Laminate, including designs from our Virtual Design Library. Our Solid Surface is durable, non-porous, and NSF compliant, making it ideal for food service areas.

Hallway

With High Pressure Laminate on the doors and Compact Laminate on the walls, hallways provide end-to-end durability, design, and safety.

Elevator

Make elevator interiors beautiful and durable with Compact Laminate, made to withstand impact from guests, wheelchairs, and medical equipment.

Waiting Room

A dedication to outstanding care can be communicated with High Pressure Laminate. It's durable, beautiful, moisture-resistant, and with AEON™ Enhanced Scratch and Scuff-Resistant Technology, it performs better, longer.

Disinfection. Durability. Design. Down to a science.

Support patients, staff, and loved ones in a holistic manner. Our surfaces meet the functional demands of the space, while promoting rest and recovery.

SS Solid Surface

A non-porous surface that's easy to clean and disinfect. Our Solid Surface is an excellent solution in high-touch areas where infection control is critical.

HPL High Pressure Laminate

Create a calming, homelike environment from over 300 designs and 16 finishes. High Pressure Laminate works around the clock to support a positive patient experience.

CS Coordinated Surfaces

Why settle for close enough? We provide an easy-to-spec combination of High Pressure Laminate, Thermally Fused Laminate Panels, and Edgeband, perfect for coordinating storage cabinets, work surfaces, and more.

WxY Wilsonart X You

Enhance a room's identity and mood with entirely custom laminates, created with camera-ready artwork, photos, or illustrations.

RIVER CHERRY 7937-38 HPL JOVIAN 9211CM SS

Exam Room

A strategic blend of Solid Surface and High Pressure Laminate supports functionality, maintenance, and long-lasting performance. For patient-provider communication, our laminate whiteboard complements the space.

FIELD ELM 7999K-12 HPL WHITE STONE 9208CS SS

Imaging

Mixing materials like Compact Laminate and High Pressure Laminate creates technical workspaces with a balance of durability and professional sophistication.

NEOWALNUT 7991-38 HPL OATMEAL 9101G5 SS

LANDMARK WOOD 7981K-12 HPL PARIS FOG 9110CS SS GREY E52150 EOSCU

Infusion Area

This area's critical elements require a combination of surfaces that can handle harsh disinfection protocols and foster a calming experience. High Pressure Laminate, Solid Surface, and EOSCU work together to deliver an unparalleled solution.

Where surfaces support a positive outcome.

Empower caregivers while they foster a human connection with patients and their loved ones. A mix of functional surfaces supports every staff member, every shift.

SS Solid Surface

A non-porous surface that's easy to maintain and disinfect. Seamless and color though, our Solid Surface excels in high-touch settings.

HPL High Pressure Laminate

Durable, beautiful, and moisture-resistant. Ideal for high-touch areas, including reception areas. Specified with AEON™ Scratch and Scuff-Resistant Technology, this surface performs better, longer.

TFL Thermally Fused Laminate

Available in over 230 designs and 9 finishes. Strategically coordinated with our High Pressure Laminate, this cost-effective solution excels in vertical, low-touch applications.

WxY Wilsonart X You

Add a “wow” factor to public-facing applications. For logos, artwork, and well-positioned wayfinding elements, our laminates can be completely customized.

Floor 5 Patient Rooms 500-520

HPL

Healthcare Workplace

A functional environment for sharing resources and performing administrative duties. Our High Pressure Laminate promotes sophistication, durability, and comfort. Traceless™ Laminate adds a unique, soft-to-the-touch surface that conceals smears, smudges, and streaks.

FLAX LINEN 4990-38 HPL MORELIA MANGO 7985-38 HPL TRACELESS CREAM VELVET 15502 HPL

Lab

Ideal for laboratory surfaces, Durcon® Epoxy Resin is chemical- and heat-resistant, non-flammable, and non-absorbent. Available from Durcon® – a Wilsonart company. Learn more at Durcon.com.

DURCON GRAY

Lockers

Our Compact Laminate ensures staff lockers withstand high-traffic impact, intensive disinfection protocols, and add durability to the aesthetic of your design.

PHANTOM ECRU 8212K-28 HPL FLORENCE WALNUT 7993-38 HPL

LIGHT OAK PLY 8202K-28 HPL QUARRY MELANGE 9041ML SS

Break Room

By blending High Pressure Laminate and Solid Surface, staff can enjoy a break room that's design-forward, relaxing, and easy to maintain. Adding surfaces that are NSF compliant supports the broad range of activities common to modern healthcare break areas.

Your experience continues

Visit wilsonart.com and discover thousands of options, countless possibilities, and designs that stand the test of time and trend.

We make partnering a routine procedure.

SURFACES FOR HEALTHCARE

Wilsonart, a world leading engineered surfaces company, is driven by a mission to create surfaces people love, with service you can count on, delivered by people who care. The company manufactures and distributes High Pressure Laminate, Quartz, Solid Surface, Coordinated TFL and Edgebanding and other engineered surface options for use in furniture, office and retail space, countertops, worktops and other applications. Operating under the Wilsonart®, Resopal®, Polyrey®, Arborite®, Laminart®, Bushboard, Ralph Wilson® and Durcon® brands, the company continuously redefines decorative surfaces through improved performance and aesthetics.
