Calacatta Villa	32	Antique Pearl	64		
		Geo Grigio	66		

2021 new colors

****2021 new leathered finishes**

This Corian® Quartz paper palette is a flexible, handy and lightweight tool composed of high-definition printed paper samples which give a visual impression of what Corian® Quartz colors look like.

All printed colors were evaluated and compared to real Corian® Quartz samples under a 6000k lighting source.

The printed colors which present an accentuated metamerism, are mainly due to the mineral pigments contained in the inks.

Evaluation under different lighting conditions as well as differences in visual perception, could lead, for some colors, to appreciable differences between paper and material.

It is always advisable to evaluate the physical Corian® Quartz sample before making a final selection.

We invite you to visit www.corianquartz.com, check our online color tool or ask your Corian® Quartz sales contact for more information.

Colors included in this fan deck are valid from October 2021, until further notice.

Aesthetic Highlights and Specifications

Each and every Corian® Quartz design includes a variety of characteristics and specifications that could be useful for your project and deserve attention to achieve the best possible result.

On the next page you will find a list of aesthetic characteristics that highlight the features of the colors in the Corian® Quartz portfolio. It is advisable to evaluate physical samples before making your final selection. For more information, please visit corianquartz.com or consult with your Corian® sales contact.

How to read the description printed on color page:

SLAB SIZE

- 1 - 65"X130" (165X330cm) - available in ¾" & 1 1/5" (2 & 3cm) thickness
- 2 - 63"X120" (160X305cm) - available in ¾" & 1 1/5" (2 & 3cm) thickness
- 3 - 63"X126" (160X320cm) - available in ¾" & 1 1/5" (2 & 3cm) thickness

AESTHETIC HIGHLIGHTS

- A **Samples may not represent the full aesthetic:** variations are inherent and unique characteristics do not affect product performance.
- B **Contains random veins:** samples may not represent the full aesthetic. Variations are inherent and unique characteristics do not affect product performance. Random veining can make seams more visible.
- C **Contains very large, randomly distributed particles:** samples may not represent the full aesthetic. Variations are inherent and unique characteristics do not affect product performance. Contains very large, randomly distributed particles.
- D **Contains large, pronounced veining:** samples may not represent the full aesthetic. This color has large, pronounced veining. Random veining can make seams more visible. Variations are inherent and unique characteristics do not affect product performance.
- E **Contains random veins and leathered surface:** samples may not represent the full aesthetic. Variations are inherent and unique characteristics do not affect product performance. Random veining can make seams more visible. The leathered surface of this color is more prone to showing signs of daily use and will require more frequent cleaning.
- F **Contains large, pronounced veining and leathered surface:** samples may not represent the full aesthetic. This color has large, pronounced veining. Random veining can make seams more visible. Variations are inherent and unique characteristics do not affect product performance. The leathered surface of this color is more prone to showing signs of daily use and will require more frequent cleaning.
- G **Contains random veins and matte surface:** samples may not represent the full aesthetic. Variations are inherent and unique characteristics do not affect product performance. Random veining can make seams more visible. The matte surface of this color is more prone to showing signs of daily use and will require more frequent cleaning.
