DuPont™ Corian®
The Collection of Sinks and Bowls

corian.

Let your imagination flow

IMAGINE A KITCHEN OR BATHROOM WHERE COLOURS AND TEXTURES FLOW SEAMLESSLY TOGETHER. WHERE SURFACES, SINKS AND BOWLS BECOME ELEGANT WATERFALLS OF SMOOTH, SLEEK LINES

Wouldn't it be wonderful if you could design your kitchen or bathroom to be like that? You can. With Corian®. Simply make Corian® kitchen sinks and vanity bowls integral parts of your Corian® surfaces. It's not only a sensational look, but practical. With the non-porous nature of Corian® there are no open sink joints or seams. So you can spend less time worrying about stains, dirt, germs and mildew. And find time for much more creative endeavours than cleaning. The ability to create an entire, continuous surface in Corian®, incorporating sinks or bowls, is one of material's main advantages. Seamed undermounting techniques eliminate rims that trap dirt and water, minimizing cleaning and maintenance. The ease of installation of single or double sinks or a series of units, makes it possible to design spaces that respond to criteria of practicality and multiple use, alongside highly emotional, individual, aesthetic values.

Left: Board kitchen with worktop and integrated sink in DuPont™ Corian®; design Pietro Arosio, photo courtesy of Snaidero. The sink shown in this image is a fabricated sink in DuPont™ Corian® developed by companies other than DuPont, it is not a standard sink or bowl produced and marketed by DuPont; the image of this sink is shown to propose an example of the wide application potential of DuPont™ Corian® in the area of sinks and bowls. The Shape of Things to Come

CORIAN® OFFERS THE WISDOM OF CHOICE, COMBINED WITH THE EXPERTISE
THAT COMES WITH MANY YEARS OF SERVICE AND EXPERIENCE

The future for bathroom and kitchen design is bright, whether you choose from an extensive range of ready-made shapes of Corian® sinks and bowls, or a customized creation exploring the materials' extraordinary versatility and design flexibility.

Either way these shapes can be smoothly fitted to a Corian® countertop forming a uniform unit and leaving a seamless finish with no place for dirt to hide.

Standard models are available in a limited number of solid colours, while customized design can be made in any hue from the unique Corian® colour palette on offer.

There is also the DuPont fabricated sink option, which features a seamless Corian® body flowing from the worktop to meet a stainless steel bottom.

This offering comes with a range of accessories, use and care guidelines and is supported by a Limited DuPont™ Corian® warranty when supplied by our highly skilled network of approved fabricators.

A helpful choice of fifteen ready-moulded sinks and four bowls are available in a variety of colours and sizes, shapes and configurations. A range of shapes with softer, curving corners is also available.

USE AND CARE

Depend on us to make your life easier. Corian® is an advanced blend of natural materials and acrylic polymer. By nature, that makes Corian® easy to clean, easy to care for and easy to live with. Of course, Corian® isn't self-cleaning. Few things are. But only minimal care is required to maintain its good looks. And if accidents happen, it's a comfort to know that Corian® is non-porous, stain-resistant, durable and renewable. For detailed instructions, please ask your Corian® specialist for guidelines on using and caring for your Corian®.

QUALITY NETWORK & WARRANTY

Count on us to keep our promises. Corian® is backed by a 10-Year Limited Product Warranty. When the Corian® Quality Network installs your Corian®, the entire installation is under limited warranty for 10 years, too. Our team of authorised fabricators and installers are trained in the latest techniques for working with Corian®. And they're committed to deliver the highest levels of quality and customer service at the lowest possible installed cost.
