## ABOUT FENIX®

INNOVATIVE MATERIALS  
FOR INTERIORS. ITALIAN  
DESIGN SINCE 2013.

### APPLICATIONS

Kitchen  
Bathroom  
Furniture  
Retail  
Healthcare  
Hospitality  
Office  
Transportation  
Industrial Design

FENIX® are the innovative materials created for interior design by Arpa Industriale. Applying proprietary technologies, the external surface of FENIX® is characterised by the use of next generation acrylic resins; hardened and fixed through an Electron Beam Curing process. With low light reflectivity, FENIX® surfaces are extremely opaque, soft touch and anti-fingerprint. Thermal healing of superficial micro-scratches is also possible.

Three types of materials are available:  
FENIX NTM®, FENIX NTM BLOOM®, FENIX NTA®.

They are suitable for both vertical and horizontal applications (kitchens, bathrooms, design furniture, retail, offices, and contract).

## FENIX® FEATURES

# FENIX<sup>NTM</sup>®

## FENIX NTM®

FENIX NTM®; introduced in 2013, is a technical and aesthetic answer to two interior design trends: smart materials and matt surfaces. Available now in 20 timeless colors for vertical and horizontal applications.

## PRODUCT SPECIFICATIONS

Thickness	≡ Colour	Type/Core	□ Size
0.9mm	All FENIX NTM® range	Standard	3050x1300mm/ 4200x1600mm
1.2mm	All FENIX NTM® range	With matched color core	3050x1300mm/ 4200x1600mm
4.0mm 6.0mm 8.0mm 10.0mm 12.0mm	All FENIX NTM® range	Double-sided with matched color core and double-sided black core	3050x1300mm/ 4200x1600mm

\*Please contact the relevant sales personnel for specifications on color and thickness.

 FENIX  
INTEGRATED  
SOLUTIONS

## KITCHEN SINKS

## KITCHEN SINKS

A solution of integrated sinks designed to match worktops made of FENIX.  
The sink collection is made of an innovative "matt composite material" that suits FENIX look and feel perfectly: an aesthetic integration among sink, countertop and kitchen design.  
Two different solutions: **DROP IN SINK** and **INTEGRATED SINK**.

### DROP IN SINK

The sink is inserted in the worktop from above.

### INTEGRATED SINK

The sink is inserted from below and is fixed to the worktop in two ways: **undermount** or **flushmount**

## PERFORMANCE

This sink collection represents an elegant and harmonic choice that combines performance with aesthetics.  
Sinks are manufactured by Elleci S.p.A. and are made of an exclusive material.  
This is conceived for sink production and it is a blend of ceramic nanoparticles and six innovative acrylic resins.  
The special composition makes the sink more resistant to impacts and thermal shocks.  
Its smooth surface allows a rapid flowing of water and creates a "lotus effect" that ease the cleaning.  
The UV protection prevents the sink from discolouration effects over time.

Resistant  
to impact

Resistant  
to thermal  
shocks

100% Water  
repellent and  
stain resistant

Lotus effect

UV protection

## KITCHEN SINKS | COLOURS

With FENIX INTEGRATED SOLUTIONS it is possible to mix and match FENIX worktops with the 14 sink colours.
